

2021 ILLINOIS CHAPTER MISSION SPENDING

Pheasants Forever & Quail Forever's unique system of fundraising and project development allows members to see the direct result of their contributions. In fact, chapters determine how 100 percent of their locally raised conservation funds will be spent—making us the only national conservation organization that operates through this truly grassroots structure. Chapter spending delivers important local, state and national impact that protects and expands our mission delivery. Providing resources for habitat improvement projects and conservation education doesn't stop at the county line. By supporting our local chapters we can insure the mission lasts Forever.

HISTORICAL CHAPTER SPENDING

FY21 CHAPTER SPENDING

Since forming in 1982, Pheasants Forever & Quail Forever chapters have created or enhanced wildlife habitat on more than 461,884 acres across Illinois. In the year 2021 they will have accomplished 21 million dollars spent towards local, state and national initiative. Join us in supporting those efforts by networking with one of our 62 Illinois Chapters.
